

All Danville Station Owners:

The Storm action update will be discussed at the beginning of the Annual Meeting (1/30 at 6:30 pm). The Associations' geotechnical engineer consultant (ENGEO Inc.) and its legal counsel will provide background on the historical maintenance practices and ownership of the San Ramon Creek passing through DST property. ENGEO has identified several follow-up items to determine what can be done to improve water flow in the future and mitigate potential flooding.

Other items that are in process:

- 1) Hold a site meeting with the town, the county flood control and our engineer from ENGEO to determine the next steps and responsible parties to improve the flow. That meeting will be held within the next 2 weeks.
- 2) DST is working with our vendors and engineers (to include the Town) to address the solution for the parking lot.
- 3) If your home was affected by the recent flooding there may be resources available to you. Please reach out to the following agencies to explore what might apply to your particular situation:

- [Contra Costa County flood response FAQ](#)
- [Contra Costa Flood Damage Survey](#) -they are requesting all affected property owners complete this to add to the damage tally
- Contact at the Town of Danville- Marcelle Indelicato - mindelicato@danville.ca.gov / 925-314-3368
- [FEMA California Disaster page](#)- check for updates to see if individual assistance has been approved for our county (currently no)
- <https://www.contracosta.ca.gov/>
